

R&D CAREERS AT PEPSICO

LEARN TWICE AS MUCH IN HALF THE TIME

R&D internships at PepsiCo provide you with world-class training experiences + learning opportunities, while you discover our culture and decide if a career at PepsiCo is right for you.

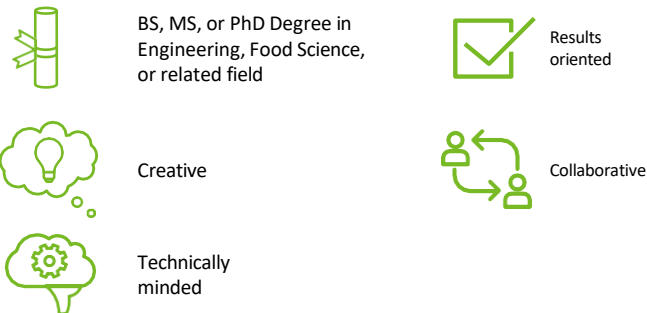

R&D CAREERS AT PEPSICO

THE JOB

As a new campus hire, you will work as one of the following:

- R&D Engineer: designing, testing, scaling up, and launching new processes
- R&D Food Scientist: generating new ideas, prototypes, and optimizing products
- R&D Global Functions Specialist: working in Sensory, Quality, Regulatory, Food Safety, or Statistics.

YOU

R&D INTERNSHIPS AT PEPSICO

THE PROGRAM

Locations:
Plano, TX
Valhalla, NY

Real Projects: Work on strategic problems based on actual PepsiCo business needs, culminating with presentation to leadership team

THE OPPORTUNITIES

Executive speaker series

Charitable events

Professional networking events

Social networks to keep you connected to peers

SAMPLE PROJECTS

Product development with vegetable-based ingredients

Process evaluation of novel mixing technology

Sensory study of new product formula with healthy ingredients

Food safety risk analysis of R&D prototypes

WHAT I LOVE ABOUT THE CULTURE AT PEPSICO IS THAT IT ALIGNS WITH MY VALUES. I'M ALL ABOUT LEARNING AND PUSHING MYSELF TO BE BETTER. I GET TO DO THAT EVERYDAY AT PEPSICO. THE EXPOSURE I GET TO DIFFERENT PARTS OF THE BUSINESS, PEOPLE AND THE PROCESS IT TAKES TO GET A PRODUCT ON THE SHELF HAS HELPED ME TO GROW MY R&D SKILLS.

- SOPHIA E. | FOOD SAFETY PROCESS AUTHORITY

THE EXPERIENCE

In your first 24 months at PepsiCo, you will build Critical Experiences, which may include:

Product Development

Commissioning of new technology

Process Development

External innovation

Experimental Design + Data Analysis

Sustainability Efforts
